Delivery: September 2025

### KRISTALLNACHT: THE NAZI FURY

Production: Les Films en Vrac for ARTE France & Histoire TV

2x52'

On the night of 9-10 November 1938, a terrible wave of anti-Semitic violence broke out across the Reich. The night became known as "Kristallnacht" ("the Night of Broken Glass"), due to the litter of broken glass left in the streets the next day. A euphemism that reduces events to a simple riot or mere property damage. Yet this was the very first pogrom in German history. A turning point in the regime's repression of the Jews. The beginning of the Shoah... This film deciphers these terrible events, its challenges and consequences, and shows how those 3 days forever changed the fate of Jews in Germany and Europe.

In 2016, an album containing over 250 previously unpublished photos of Nazi officials was unearthed from a dusty cupboard in the American West. News of this surprising discovery soon reached Dr. Stefan Hördler, one of the world's leading experts on Nazi history. Snapped between 1928 and 1943, these photos revealed the meteoric rise of a young Hitlerite group in the Nazi concentration camps. After 5 years, Dr. Hördler has meticulously analyzed the photos to reconstruct the insane path of this radicalized group to the point where they became killing machines.

### NAZI CREATURES

52'

Production: Label News & Label Images  
for RMC Découverte & Toute l'Histoire

Hitler, Göring and Himmler shared a common, ambiguous and puzzling fascination with animals. Combining archival footage, expert commentary and historical re-enactments, this documentary explores a little-known chapter of the Third Reich, exposing the ruthless, pseudo-scientific methods employed by the Nazis to control nature and justify the horrors of the Holocaust.

### HITLER'S JUNKIES

52'

Production: Label News & Label Images  
for RMC Découverte & Toute l'Histoire

September 1, 1939. Hitler launched the German army's offensive in Poland: in less than a month, the country was invaded and totally crushed. A blitzkrieg that the Wehrmacht owes to its tactical and technological superiority, but also to a new substance, a powerful synthetic drug known today as "crystal meth": Pervitine. The discovery in Germany, France and the USA of declassified documents (including Hitler's personal medical file) marks the start of a fascinating investigation into the heart of Project D-IX and methamphetamine - whose mass distribution to Reich soldiers certainly changed the course of history.
